**SUPPLEMENTAL RESPONSE**

Responsive to Office Action Dated 10/11/2002

15 Introductory Comments:

Applicant previously responded to the Office Action dated October 11, 2002. In that response, claims 1 and 12 were amended. Further a paragraph in the specification was amended  
20 by deletion and replacement paragraph. Unfortunately, the markings or "redlining" indicating changes in the claims were not carried into the documents filed with the response. Claims 1 and 12 were indicted as "currently amended" and included the clean text of the claims as amended, but without "redlining" to show the changes.

25 The claim amendments provided herewith are identical to those previously submitted, but include markings to show the changes.

This response includes the following sections each beginning on a separate page:

30 Replacement Amendment to the Claims; and  
Remarks.
